### Short and Interesting

**CHICAGO, Oct. 2.**—Ezra Meeker, 92 years old, who traveled from Indianapolis to Seattle, Wash., 70 years ago behind a team of oxen, today recounted how he flew across the state of Washington at a mile a minute a short time ago.

Meeker, more familiarly known as "Uncle Ezra," is attending the American Electric Railway convention here.

A bicycle, 57 inches high, was ridden by William Meeker from Indianapolis to Chicago, and is one of the exhibits of obsolete means of transportation of the exposition held in connection with the convention.

Other exhibits include "Ben Halliday, number 14," a bullet-placed mail coach drawn by four horses, that carried Brigham Young's wives from Salt Lake to Sacramento, Cal. The coach has a record of having been held up 17 times by "Black Bart."

#### ONE JUSTICE ILL

Harding Sets Aside One Hour to Receive Group.

WASHINGTON, Oct. 2.—Chief Justice Taft and all the associate justices of the supreme court, with the exception of Justice Pitney, were here today for the opening at noon of the annual conference of the judges of the United States circuit courts.

Justice Pitney was detained in a sanitarium at Morristown, N. J., his home, where his condition is reported to be serious.

Included in the program of formalities for the opening day was the administration by the chief of the judicial oath to former Senator George Sutherland of Utah, appointed to fill the vacancy of the bench caused by the resignation of Justice John H. Clarke.

#### HOLMES BETTER

Justice Holmes, the oldest member of the court, who submitted to a serious surgical operation last summer, was present, having returned in restored health, and declared himself ready for the exacting duties of a crowded docket. Justice Day, nominated by the president to act as umpire in the settlement of German debts and whose retirement from the bench had been rumored, was prepared to continue his judicial duties.

#### HARDING GIVES HOUR

The program for the opening session was confined to the usual acceptance of motions for admission of attorneys to practice.

The president set aside the hour of one o'clock to receive the court.

Hearing of cases will begin in the court on Tuesday, but there will be no opinions or orders from the court until the following Monday.

#### TAKE NEW STEPS TO PROTECT PARK GAME

YELLOWSTONE PARK, Wyo., Oct. 2.—The protection of wild game in Yellowstone park is being given more attention than ever this fall and virtually the entire force of rangers has been mobilized for patrol duty during the open hunting season in adjoining states.

Constant vigilance is being maintained along the park boundary lines and trails during these periods, with a view to absolute prevention of poaching and the apprehension of poachers. Many of the park rangers have also been appointed deputy game wardens for the states of Wyoming, Montana and Idaho, and will assist in enforcing the game laws obtaining in the territory surrounding the park.

Warning notices against hunting have been posted everywhere about the park boundary, some 2500 metal signs being used for the purpose. Hunting of any kind within the park is forbidden, even the killing of predatory animals being limited to members of the ranger force.

This year, however, will probably witness a sharp reduction in the moose herd ranging at the headwaters of the Yellowstone river. The state of Wyoming has made provision for issuing fifty moose hunting permits, the open season for moose in that state being from September to October 31. This is regarded in the park as particularly advantageous to the moose, since the open season comes before the rutting season, and since fifty of the Yellowstone moose were killed in Wyoming last year.

#### TOKIO, Sept. 7.

(Correspondence of the Associated Press.)

The car tomb at the Tokoku shrine in Kyoto, dedicated to the memory of Taira no Hideshi, one of the greatest feudal leaders of Japanese history, has come in for such general criticism that an investigation is being made by the home office to decide whether or not it should be removed.

The car tomb is supposed to contain the ears and noses of thousands of Koreans killed by Hideyoshi's army in an invasion of Korea between 1592 and 1597. Japanese Christians have petitioned the Kyoto authorities to remove the tomb monument, claiming that it stands for militarism and barbarism.

#### CHICAGO, Oct. 2.

Voluntary exile in preference to trial on a charge of threatening to kill his neighbor's son was chosen by August Huchl, a teaming contractor. It was announced today by State's Attorney A. V. Smith of Lake county, Smith said that after a review of the case he gave Huchl the choice of the two alternatives and Huchl, a life long resident of the county, chose to take his family and start life elsewhere.

#### LOS ANGELES, Oct. 2.

Mildred Harris, motion picture actress, now on a vaudeville tour, declares she received only \$6,500 from her former husband, Charles Spencer Chaplin, screen comedian, who the law says had been paid, and she is about to go into bankruptcy, according to a letter received from her here, which the Los Angeles Times printed Sunday.

Miss Harris' financial condition was brought about by two long illnesses and by being out of work for many months, said the letter.

#### HOUSTON BY CREDITORS.

"I have been hounded for months by my creditors, and have been paying most of my salary out to them weekly," the letter, dated St. Paul, read. "I can not satisfy all my creditors, and they are suing me. Mother and I have been nearly crazy for weeks."

"Besides this, an ex-producer of mine is suing me for a large amount that he has no right to do, as he is the one who two years ago sent me east to buy clothes for three pictures, and then cancelled my contract on account of my divorce. Mr. Chaplin would not stand for me on the same program with him."

#### LOSERS HER HOME.

"I believe I told you of losing our house and furniture through my illness last year. Mother and I had put everything we had into it. We lived nearly a year on the money Charles gave me, which was about \$6500 after the lawyers were paid."

"So my only way out is bankruptcy. I have fought it for over a year, but there is nothing I can do. I shall do what is right by those that are deserving when I can. I am not trying to cheat anyone."

### CONDITION OF EUROPE TOPIC OF GATHERING

Eugene Meyer Says Long Time Agricultural Credit Is Necessary.

#### BANKERS CHEERFUL

Move On to Curb Establishment of Branches by Big Fellows.

#### NEW YORK, Oct. 2.

As the hundreds of bankers assembled here today for the first session of the convention of the American Bankers' association, there was unanimity in the expression of bankers from all parts of the country, that two years of good business lie ahead. At the same time, the bankers believe that conditions in Europe vitally affect industrial conditions in the United States, and indications point to the convention's devoting considerable time to the situation.

**EUGENE MEYER SPEAKS**

The general policy of the nation should look not only toward further development of the federal reserve system, but also the welding into a closer and more harmonious unit the different elements of its banking structure, Eugene Meyer, Jr., managing director of the war finance corporation declared in an address here today before the state bank division of the American Bankers' association.

Expressing the opinion that the fact that two-thirds of the country's banks, representing 30 per cent of its total banking resources, were outside of the federal reserve system was "undoubtedly responsible, in part at least, for some of our recent difficulties," Mr. Meyer said: "We have reached a time where we must decide whether we shall continue the more or less haphazard development of our banking machinery or whether our action shall proceed along lines based upon a comprehensive view of the needs of the country."

#### MAY WEAKEN BOTH

The fact that state banking laws frequently permit practices in which the national banks cannot legally engage, Mr. Meyer said, has created a development of competition between the two systems, which may lead to a gradual weakening of both. Discussing in this connection the agitation to permit branch banking by the federal government, Mr. Meyer said that the question should be decided on its merits and not on the basis of competition between the two systems.

#### AGRICULTURAL FINANCING

Mr. Meyer said this practice "may be good if carried on in a limited way and bad if permitted on an extensive scale," but whatever the opinion may be, he said, the question should be decided on its merits and not on the basis of competition between the two systems.

#### CHICAGO IS ROTTEN, OUSTED CLERIC SAYS

CHICAGO, Oct. 2.—The Rev. J. H. Williamson, recently dismissed as law enforcer for Chicago, a \$10,000 a year position created by Mayor William Hale Thompson, preached his first sermon Sunday since he left the city hall, and assailed conditions in the city. He said Chicago is "rotten from its center to its circumference."

He said there are more than 2000 "hell holes" operating throughout Chicago under guise of coffee shops. "And," he added, "last year Chicago collected only \$2500 out of \$1,941,414 of forfeited bonds—most of them criminal cases. The criminals are protected; their crime ring makes them immune."

### TENSION OVER NEAR EASTERN SITUATION EASIER AS PLANS FOR MEETING ARE WORKED OUT

Kemal Firm That Thrace, Including Adrianople, Shall Be Evacuated and Given to Turkey; England Less Worried But Not Sure War Is Entirely Averted

#### LONDON, Oct. 2.

(By the Associated Press.)—There was a relaxation today of tension over the Near Eastern situation. The despondency noted in the press comment the last few days gave way to hope today, although not to absolute confidence that war has been averted.

The bulk of the press opinion is that General Harrington has saved Great Britain from war thus far and there are many eulogisms of his tact and skill, the hope being added that he will be left a free hand to deal with the situation until it is settled.

The Turkish nationalists assembly at Angora has unanimously approved the action of Mustafa Kemal Pasha and has authorized the dispatch of delegates to Mudania and later to the peace conference, according to a Central News dispatch from Constantinople.

#### ATHENS, Oct. 2.

(By the Associated Press.)—The newspapers today announce that the British minister signed the visitors' book at the palace Sunday and they interpret this as British recognition to the new king.

#### CONSTANTINOPLE, Oct. 2.

(By the Associated Press.)—With an armistice conference definitely fixed for tomorrow at Mudania, the peril of war between Great Britain and Turkey appeared less menacing today.

Great Britain's recessions from the neutral zone controversy caused no little surprise and disappointment here, but it was generally admitted that this step was the only thing which could have saved Mustafa Kemal Pasha's hand. It is pointed to as another example of England's extraordinary patience and earnest desire to avoid war.

Up to the time of the issuance of Brigadier General Harrington's temporary note, Saturday night, the situation looked exceedingly critical. It is now conceded that his tact and tolerance, coupled with the timely arrival of reinforcements from England, prevented the Turks from striking at Chanak.

#### POINTS AT ISSUE.

It is expected the conference may drag for several days, as the Kemalists doubtless will bargain and haggle over several points. It is felt that the influence of the Italian generals will be an important factor in bringing the meeting to a successful conclusion.

The British declare they will insist upon occupying the Asiatic banks of the straits even at the possibility of failure of the conference. They may also contest the immediate withdrawal of the Greek army from Thrace, making this conditional upon acceptance of the allied peace proposals. The inviolability of the straits will be stoutly defended.

An immediate mutual agreement to suspend all movements of troops was expected here today to be the first outcome of the Mudania armistice conference which is to meet tomorrow.

#### OCCUPATION OF THRACE.

The conference will discuss the occupation of eastern Thrace by detachments of interallied troops during the Greek army's withdrawal from Thrace. The expectation here is that the Greek evacuation will begin immediately after the conference, permitting the establishment of the Turkish administrative control.

General Harrington, the British commander in chief, will leave for Mudania on the dreadnaught Iron Duke early tomorrow. The Italian and French generals will make the trip on battleships.

#### PEACE ENVOY RETURNS.

M. Franklin-Bouillon, peace envoy from the allies to Mustafa Kemal Pasha, returned Sunday to Constantinople from Smyrna on the French cruiser Metz, successful in his mission of arranging an armistice conference.

He conferred with General Pella, French high commissioner in Constantinople, and is understood to have told him that only the most extraordinary force on his part prevented Kemal from acting rashly. He said it was clear to the nationalist leaders if war were renewed in the Near East it might spread to the whole of Europe.

#### LIGHTNING FIRES COAST OIL TANKS

SAN FRANCISCO, Oct. 2.—Lightning early Sunday struck two 55,000 barrel tanks at the Union Oil company's tank farm at Oleum, 15 miles from here on San Pablo bay, and set them afire. One contained crude oil and the other a refined product. The damage several hours later was estimated at \$250,000.

The bolt came during the first thunderstorm in this region in many months. One section of the roof of one tank, a piece of heavy metal about 20 by 30 feet, was thrown more than 50 feet. The fire, it was said, might burn many hours. Employees at the tank farm devoted themselves solely to keeping other tanks from taking fire. They were assisted by a west wind which blew the flames away from the main plant at the farm, distant some 400 feet from the burning tanks.
